

# Mechanical Transplanter Co.

**NEW!**

## Model 1100

- Two versions to chose from:
  - Individually driven Direct Drive utilizes an ATV type drive tire in front of each unit
  - Gauge wheel drive system with hex line shaft driving multiple units
- Sealed ball bearings used throughout
- Plant spacing starts as close as 6" in the row
- Roller chain utilized on both drive chain and roller chain for reduced flex and stretching
- Many options available
