

Mechanical Transplanter Company

Plasticulture Equipment

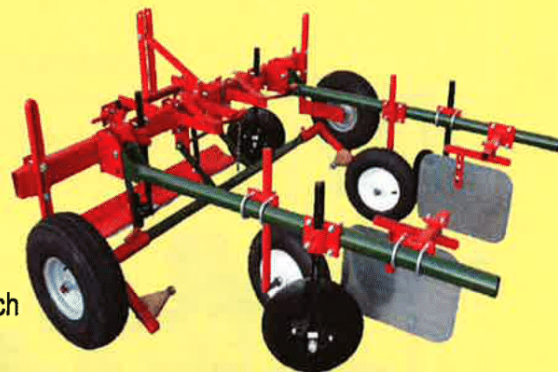

Model 85 Mulch Layer

- * Makes laying plastic mulch quick and easy
- * Lays 3' or 4' plastic
- * Holds plastic down tightly
- * Great for smooth, high speed plastic laying
- * Shown with optional drip attachment
- * Extra roll carrier

Model 90 Mulch Layer

- * The most adjustable and free floating mulch layer on the market
- * Plastic roll floats with ground contour
- * Two sets of 14" disc blades - One set to open furrow and one set to cover the mulch evenly
- * Drip attachment available
- * For 3' - 5' plastic (6' special order)

Model 92 Mulch Layer

- * Leveling pan for very smooth and firm beds
- * Double rollers for easy loading of plastic
- * Roller assembly allows for self starting of plastic, just set the machine down and go!
- * Bed shaping shoes open furrow for the stretch wheels hold the plastic while rear cover discs apply soil to edge of plastic
- * For 3' and 4' plastic (5' special plastic order)
- * Shown with optional drip attachment and plastic cutter

Model 94 Bed Shaper/Mulch Layer

- * Prepares bed and lays plastic mulch in one pass
- * Creates up to an 8" high bed
- * Handles 4' or 5' plastic widths
- * Adjustable bed widths ranging from 24" - 40"
- * Adjustable plates to control shape of bed from flat to crowned
- * Hard UHMW plastic lined bed shaper plates to provide a non-stick surface and longer wear
- * Four large discs to bring soil into bed shaper pan
- * Drip attachment and fertilizer attachment available
